**Volunteers Urged
For Christmas
Toy Repair Shop**

Word comes from Santa Claus headquarters at Torrance Welfare Center that more Christmas Spirit is needed here. Both the Christmas Toy Repair Shop and the Christmas Clearing Bureau are appealing to local residents for help. The Christmas Toy Repair Shop is in the hands of Capt. Roy Winters of the Torrance fire department.

Any broken toys which can be repaired and distributed to needy children may be brought to the Fire department. The situation needs both men and women volunteers for putting new wheels on wagons, new arms on dolls, and so on. Those interested are urged to contact Winters at once.

The Christmas Clearing Bureau requests names of needy families be listed at the Welfare Center as soon as possible. Plans are to provide Christmas dinners and gifts for families and the Bureau would like the names of persons who need this help. The phone number of the Welfare Center is Torrance 1405.

Chairman of the Christmas committee, the Rev. Ben Lingenfelter, is assisted by Mrs. Helen Miller, Miss Esther Maxwell,

**Watch Walkers,
Motor Vehicle
Division Warns**

Every person who drives an automobile in Torrance today was admonished by the Department of Motor Vehicles to keep a sharp eye out for pedestrians during the coming holiday period.

The warning, is part of the current statewide safety drive sponsored by Governor Earl Warren having as its slogan: "Don't Let Death Take Your Holiday. It points out that December is the worst month of the year for pedestrian accidents because of shorter hours of daylight, fog and rain, congestion of city streets due to holiday shopping and release of children from school.

"Be on the alert constantly for people walking in front of your car," a Department bulletin reminded Torrance drivers. "Be especially watchful for children and aged persons. Christmas shoppers the right of way at all intersections. Cut your speed in urban areas and

**MASAKI ORDERED
TO CONVERT HOUSE
INTO APARTMENTS**

Satsuo Masaki has been granted a three months extension to operate his trailer court and other rental property on Western avenue in North Torrance, provided he convert a six-room building into apartments rather than use them as rooms with a common kitchen for six families residing therein.

The Planning Commission, hearing his plea for a six months extension, ruled he could have only three months and that there would be no further time allowed to complete the work. He previously had been given six months to place the property in proper order.

along highways where people may be walking."

Pedestrians, in turn, were urged to wear articles of white clothing or even carry newspapers to increase visibility in the twilight or night hours.

Director of Motor Vehicles cited that last December, 216 accidents occurred in the state involving the death of one or more pedestrians. During the first seven months of this year, 779 accidents involving the death of one or more pedestrians occurred.

**Rabies Subject
Of Health Dept.
Staff Symposium**

Latest developments in the treatment and control of rabies was the subject of a recent symposium by staff members of the Los Angeles county health department which was presided over by Dr. Roy O. Gilbert, county health officer.

Featured on the program were the history, cause and symptoms of rabies by Dr. Miriam Hubbell, San Fernando district health officer; animal rabies in Los Angeles county by C. O. Harvey, chief quarantine officer; human rabies and vaccine by Dr. Mary B. Dale, county epidemiologist; treatment of rabies by Dr. K. H. Sutherland, San Antonio district health officer, and a suggested program of control of rabies by Dr. William B. Conrad, East Los Angeles-Whittier district health officer.

The discussions brought out the fact that a large majority of the rabies in the State of California is in Los Angeles county and that California and Texas are the black spots in the United States in relation to rabies.

Dr. Conrad's program of control consisted of seven suggestions, which included more strict licensing of dogs, eliminating stray dogs, muzzling, and quarantine immigration stations at state or county lines.

Among those present were Dr. R. C. Smiley, Torrance district health officer, and Dr. Lee W. Paul, communicable disease physician in the Torrance health district.

CREOLES

The word Creole does not necessarily imply a person of mixed blood nor does it show distinction of color, according to the Encyclopaedia Britannica. The meaning has local variations, applying to descendants of non-aboriginal races born and settled in the West Indies, various parts of the United States and certain places settled by the Spaniards, Portuguese and English.

PANAMA CANAL
The Pacific entrance to the Panama Canal is actually more easterly than the Atlantic entrance, according to the Encyclopaedia Britannica. The canal does not go, as is generally supposed, from east to west. Instead, it runs due south, turns sharply east and then follows a southeasterly course.

LITTLE GREEN MEN
Little green men do not exist solely in nightmares. According to the Encyclopaedia Britannica, the complexions of the Punans, natives of Borneo, have a greenish hue because they never expose themselves to direct sunlight, but live perpetually in the half-light of the forest.
